

Applicants make the following election of species for examination purposes:

- i. an EDG receptor inhibitor that is an EDG-3 receptor inhibitor; and
- ii. a second agent that is a neuroprotective agent.

**Remarks**

In response to the Restriction Requirement, Applicants have elected Group II with traverse. The traversal is made on the grounds that a search and examination of all the pending claims would not require an undue burden of searching. Having made this election, Applicants expressly reserve the right to file one or more divisional applications on the subject matter of the non-elected claims.

Respectfully submitted,

---
